BOOK SYNOPSIS

The SECRET Technique of how to inject Cosmetic Fillers in Greater Safety-with an Amazing Reduction in Bruising, Swelling, and Pain. Imagine the Advantage you will have over those who havent kept up with the Latest Technology. Well, the Microcannula Revolution is here and few of the leading Cosmetic Injectors in the USA have made the transition from the traditional sharp-tipped hypodermic needle to the Advanced Technology of the Microcannula. Our approach is to be as simple and as pictorial as possible, for the busy physician, nurse, and physician assistant--who wants a quick reference for this Advanced Cosmetic Injection Technique. Dr. Lee is the WINNER of The Aesthetic Award 2015 as The Best Facial Injectable Enhancement Physician in the USA. He is an Internationally Published Microcannula Expert, the Air-Tite National Director of USA MicroCannula Physician Instruction, and the Inventor of several Microcannula Injection Techniques. He lectures in the USA and teaches physicians for Allergan (Botox & Juvederm), Galderma (Dysport & Restylane), Air-Tite (MicroCannula), Bovie (J-Plasma), and Eclipse Aesthetics (MicroPen, PRP, & Skinfinity RF). We have the honor to present the first book of Aesthetic Microcannula for Cosmetic Injectable Fillers--and the new Microcannula Application of MILA for the Refined Delivery of Local Anesthesia.
